In this case, a lack of haste might result in waste being imposed on the county. Things will happen that should not. But if government is to proceed in a deliberate, careful fashion and time might be necessary to do a thing right, we should allow that time. I'm going to ask a question of Senator Kremer, because it's his amendment.

SENATOR CUDABACK: Senator Kremer, would you yield for a question?

SENATOR CHAMBERS: Senator Kremer, as you come to your mike, who...

SENATOR CUDABACK: Less than one minute.

SENATOR CHAMBERS: ...who will be harmed if we do not adopt your amendment? I don't mean we'll satisfy our irritation by making these people on the county boards hurry up, but who would actually be harmed?

SENATOR KREMER: I don't know who would be harmed, but we think it is so important that they develop their own comprehensive plan and zoning and this is an incentive. And it's...the emergency is not from our standpoint; it's from those that think that they have to do it real quickly. And we want to say do the work and get it done and take your time to do it, but we want to make an incentive for you to get started on it because we think it's so important for them to have their own comprehensive plan and zoning.

SENATOR CHAMBERS: Well, how about this: if they won't hurry up, we put them in the pillory for 24 hours?

SENATOR KREMER: Well, I guess if we just want to stay clear out of it, we should stay out of it altogether, let them do their own zoning and then they can take three or four years or whatever they want.

SENATOR CHAMBERS: No, let us put the county board members in the pillory.

SENATOR KREMER: That's all right.
